Hi Bob,

I am writing to confirm receipt of your request for additional copies of the FS and the Proposed Plan. The EPA is looking for ways to best accommodate the needs of the public, we hope to have a response to you by the end of next week. Have a nice weekend.

Thanks,

Davis Zhen

Subject: Printed versions of the FS and Clean-up Plan

Cami et al,

I am writing to see if the EPA can provide 15 printed copies of the Clean-up Plan and FS in English, 5 copies in Spanish and one copy in each of the other languages in which it is available. I was able to get copies for Audubon at the last open house and it has made a tremendous difference in terms of Audubon's ability to work through the material and to share our concerns with other groups, agencies, political leaders etc. Working through the material online is extremely difficult and printing a document like this with three page fold out maps is also extremely difficult, prohibitively expensive, and the product is of marginal quality, especially the maps.

Lack of access to printed materials is proving to be a major impediment to participation for many of the groups directly participating in developing technical comments.

I think it would be a big help, and is essential to achieving engagement and equity goals, if EPA would make available multiple printed copies of the Clean-up Plan and FS for the CAG and the PHCC and to be responsive to any other groups that request written copies as well.

Thanks for your consideration of this request,

Bob Sallinger
Conservation Director
Audubon Society of Portland
